

GLENDINNING RV-POWER CABLE

Keeping you plugged into the 21st Century

Can Your Power Cord Do This . . . Even at Below Zero Temperatures?

If not, you have a "fair weather" cord. Perhaps you have even had to bring that dirty, bulky 50 amp power cable into your RV interior to thaw! Besides being impractical—it's a mess! The *Glendinning RV - Power Cable*, constructed with UL Type SOW jacketing, is the most flexible RV power cable on the market. It has proven to remain flexible regardless of exterior weather conditions.

Check out the great features and benefits of owning a *Glendinning RV - Power Cord*.

- The most flexible power cord on the market!
- Large molded hand holds make it easier to grip and remove from receptacle
- Tough molded polyurethane plug prevents cracking due to weather, temperature or mishandling
- Round ground lug provides better contact and fits receptacles better

Want More Convenience?

Try adding the *RV-Cablemaster* or *RLC-Cablemaster* to your coach. The *Cablemaster* will automatically extend or retract your power cable by simply flipping a switch.

Item #	Standard Cordsets	Item #	Standard Cordsets
